## Business

Let silence and gorgeous looks fill your day at work. The era of bulky gray PCs sitting under your desk is over. Say hello to the Shuttle XPC: these Small Form Factor (SFF) PCs are unique through their combination of attractive design and high-level performance, so you can manage your office tasks effortlessly. Shuttle's patented heatpipe technology also ensures your new PC can operate quietly, letting you focus on what's important.

## Home

Explore the internet or chat with friends from across the world via voice-over-IP. Feel like spending a calm and peaceful evening with a DVD at home instead? The Shuttle XPCs for Home are designed to meet any of your requirements while remaining quiet. With a Shuttle XPC you can count on impressive design and compromise-free performance.

»XPC

## Gaming

Play like the pros do: with silky-smooth frame rates at the highest resolutions. Surround yourself in the sounds of the game, not those of your PC. Fitted with the latest technology, processors and graphics cards, choose from models offering the power of dual-core processors, SLI graphics... or both. You'll be ready to set new records anytime!

## Media Center

Put an end to the jumble of devices and remote controls sitting in your living room with the all-in-one solution you've been waiting for. You can replace your old CD/DVD player, VCR, TV receiver and much more with a Shuttle XPC for Media Center, offered in either classic SFF PC design or Hi-Fi format. It combines the advantages of a home entertainment unit with the benefits of a PC. One system for all media – easy to control from the comfort of your sofa. Let a Shuttle XPC become the hub of your digital life, and say hello to the perfect Media Center.

 Shuttle®

## Shuttle XPC *mini* X100

Shuttle XPCs are small, but the Shuttle XPC mini X100 sets a new standard. With a surface barely the size of an A4 sheet of paper and a height of only five centimeters, the Shuttle XPC mini X100 is the smallest SFF PC ever from Shuttle. But don't be fooled by its size. It's got the power of two hearts beating inside, as an Intel Core™ Duo processor provides enough punch to meet all your home and office needs. The right choice for anyone looking for performance and unrivaled style.

## SYSTEMS CONFIGURATOR

## Feel free to configure!

Looking for the ideal configuration without having to build it yourself? We have the solution for you! Thanks to the Shuttle Systems Configurator, you now have the chance to custom design your very own Shuttle XPC. Start with one of a dozen basic configurations for Home, Business, Gaming or Media Center, or even the award-winning Shuttle XPC M1000. You can then add or exchange components, all knowing that you benefit from Shuttle's service. A small amount of work, with lots of rewards: a custom made Shuttle XPC!

## Shuttle TFT »XP17

Do you have a Shuttle XPC proudly sitting on your desk, but a bulky and ugly CRT monitor next to it? Time to ditch the latter and opt for a Shuttle TFT, especially designed to match Shuttle XPCs' sleek design. But that's not all! Impressive resolutions, fast response times and crystal clear images let you enjoy all your favorite games and movies. An anti-glare protective glass panel and built-in aluminium handle make it one tough monitor.

## ACCESSORIES

Do you want to access your Shuttle XPC right from the couch via remote control? Are you looking for an optical drive that perfectly matches your Shuttle XPC? Or do you want to redesign your case? You'll be sure to find the right solution among our Shuttle XPC Accessories! Let your Shuttle XPC turn up in a new design or add the latest bit of technology to it.

### Design

As the owner of a Shuttle XPC you don't need to be an expert to give a new look to your Shuttle XPC. Just follow your imagination!

### Mobility

Compact dimensions and low weight enable Shuttle XPCs to easily travel with you. Shuttle XPC Carrying Bags help you carry your Shuttle XPC or Shuttle TFT and provide maximum protection from water, dirt and damage. The carrying solutions by Shuttle are robust and come in stylish Shuttle XPC design.

### Technology

Shuttle XPCs are well prepared for plenty of technical innovations available in the line-up of Shuttle XPC Accessories. These feature-rich accessories can easily expand the functions of your Shuttle XPC.

## Awards

Reuters: "Small is huge in PCs these days"

"Their performance, analysts say, promises to make some of the big box rig manufacturers take notice."

Financial Times: "Size matters"

"Who wants to buy a normal PC if a powerful cube can perform the same tasks but in greater style?"

CHIP: "The League Of Extraordinary PCs"

"Quiet and nevertheless fast."

Frankfurter Rundschau: "Not just gamers love SFF PCs"

"Shuttle has taken the air out of the PC. The cases are so chic compared to normal gray towers that you won't want to hide them."

PCW: "Shuttle's perfect entry in the world of fully-configured systems"

"If you're looking for a Media Center PC that's perfect for the home office or the living room, it's a tempting choice."

Assembling Mag: "An excellent product"

"For anyone who wants to own an all-in-one Small Form Factor (SFF) PC, this Shuttle XPC G5 8300M is an excellent product."

SFFTECH: "Recommended Product"

"The M1000 brings to market the most complete and feature packed home theater PC to date."
